

Ecliptek Corporation Website Maintenance Notification

July 10th, 2008

On Saturday, July 12th, Ecliptek will be significantly enhancing our system infrastructure to address a substantial increase in traffic to our website. In order to accomplish this improvement, Ecliptek will have a planned shutdown of our site between 8:00AM and 4:00PM PDT (3:00PM and 11:00PM GMT).

Ecliptek attributes this growth to our customer's recognition of the industry's most comprehensive interactive website, where users can obtain price and delivery on Ecliptek's full line of frequency control products, including, when available, cost effective or reduced lead time alternatives, within seconds.

- [Sample Quote](#)

Ecliptek also features a sample request system, RoHS Compliance Certification generation tool, configuration specific data sheets, real time inventory availability, parametric search capabilities and much more.

Ecliptek Corporation apologizes for any inconvenience this temporary interruption might cause you or your customers. Thank you for your patience and cooperation as we continue to grow.

Ecliptek appreciates your business and we look forward to assisting you on all of your frequency control product requirements.

Sincerely,

Robert Zarrow
Vice President of Sales
Ecliptek Corporation
