Ecliptek Expands Surface Mount Crystal Product Line, Adding 2.0mm x 2.5mm ECCM2 Series

Crystals designed to fit wide range of applications requiring tight tolerance stabilities up to 50.000MHz

April 15, 2009

Costa Mesa, CA - Ecliptek Corporation is pleased to announce the addition of a new ceramic surface mount low profile 2.0mm x 2.5mm quartz crystal.

This new frequency control product complements Ecliptek's extensive offering of quartz-based crystals. The [ECCM2](#) devices are available in a variety of configurations including frequency tolerance / stability specifications as low as ± 10 ppm maximum, combined with an operating temperature range of -35°C to $+85^{\circ}\text{C}$.

Available AT Cut frequencies include

16.000MHz, 19.660MHz, 20.000MHz, 24.000MHz, 24.576MHz, 25.000MHz, 26.000MHz, 27.000MHz, 29.4912MHz, 29.939MHz, 30.000MHz, 30.720MHz, 32.000MHz, 34.400MHz, 40.000MHz, 44.000MHz, 48.000MHz and 50.000MHz

"Ecliptek is very excited about delivering this miniature package into the marketplace," said Robert Zarrow, Vice President of Sales of Ecliptek Corporation. "We believe that this technology will provide an excellent solution for low profile applications in the marketplace today."

The ECCM2 series is ideal for Bluetooth, Wireless LAN, PC Peripherals, and other consumer applications.

About Ecliptek

Founded in 1987, Ecliptek has become a leading supplier of frequency control products to the electronics industry. Ecliptek provides unparalleled quality, complete engineering support, excellent customer service and innovative products to their OEM customers and distributors worldwide. Complete information on company operations or any of Ecliptek's quality frequency control devices can be obtained by calling 1-800-ECLIPTEK or by visiting Ecliptek's internet site at www.ecliptek.com. The company's Email address is sales@ecliptek.com.
