## Ecliptek Launches REACH 155 Evaluation To Include Newest SVHC Additions

*Frequency control manufacturer targets Q4 completion  
of documentation update covering over 2,000,000 part numbers*

**July 2, 2014**

Costa Mesa, CA – In response to the European Chemicals Agency (ECHA) updated Candidate List of Substances of Very High Concern (SVHC) announced on June 16, 2014, [Ecliptek Corporation](#) has initiated its assessment to determine the impact of the four new substances on the company's crystal and oscillator products.

Ecliptek, an established industry leader in automated documentation, streamlines the user experience by publishing comprehensive REACH compliance data at the part number level on its website.

Customers can generate a Part Number Specific REACH Compliance Statement or view the REACH Compliance Status on every part number or series level data sheet. Users who prefer to download and save the PDF Part Number Specific Data Sheets for future reference can click on an update link within the document that will display the latest compliance information from Ecliptek's website.

Ecliptek anticipates finalization of its compliance evaluation by the end of the fourth quarter of 2014, including updating the over two million Part Number Specific Data Sheets available on the [company website](#).

**About Ecliptek** Founded in 1987, Ecliptek has become a leading supplier of frequency control products to the electronics industry. Ecliptek provides complete engineering support, unparalleled customer service and innovative products to their OEM customers and distributors worldwide.
