

ILSI America LLC Announces Acquisition of Oscilent Corporation

September 5, 2018

ILSI America Acquires Oscilent Corporation, Manufacturer of Frequency Control Devices

Reno, NV – ILSI America LLC is pleased to announce the acquisition of Oscilent Corporation.

Oscilent will operate as a wholly owned subsidiary of ILSI and will be headquartered in Reno, NV.

The Oscilent brand will continue to be supported for both new and existing customers in the frequency control marketplace without interruption. The transition of ownership to ILSI will be seamless to our valued customer base.

“We believe the Oscilent products will be complimentary to the existing product offering and provide a broader range of solution to our customers as well as our existing brands providing a broader range of solutions to the Oscilent customer base” said Mike Nusbaum, Chairman and CEO of ILSI. “We are excited to add Oscilent to our frequency control solutions family”.

ILSI was established in 1987 and Oscilent in 1999, providing many successful years of service, experience and expertise in the Frequency Control Market.

About ILSI-MMD-Ecliptek:

Founded in 1987, [ILSI America](#), the parent company to [MMD](#) and [Ecliptek](#), has been a market leader in frequency control products for over 30 years. Through all three brands, ILSI-MMD-Ecliptek provides turnkey supply chain management solutions and engineering support for frequency control products for our OEM customers and worldwide distribution partners. We offer a wide range of quartz and MEMS frequency control products, including surface mount and thru-hole solutions that serve every aspect of the global timing market.

About Oscilent Corporation:

[Oscilent Corporation](#) is a Manufacturer of Frequency Control Devices committed to providing its customers low cost, quality products at the highest level of customer service. We recognize that profitability is directly linked to our ability to service customers with a premier product at a competitive price. We are dedicated to the enrichment of our customers and employees, and to maintaining a work environment that fosters personal and professional growth.
